## About Me

- My passion lies in working as a Full Stack JavaScript Developer, specifically with expertise in React, React Native, Node.js, Express, MySQL, and MongoDB. I enjoy collaborating with teams and have a strong ability to quickly learn and apply new technologies. My goal is to leverage my skills and knowledge to create innovative and robust web and mobile applications using the full stack JavaScript ecosystem.

## Skills

- Project Management
- Problem Solving
- Creativity
- Leadership
- Accomplissements

## TECHNICAL SKILLS

- javascript
- react.js , next.js
- node.js , express.js
- mysql , mongoDB
- Figma
- Vue.js

## Education

2023  
Rebootkamp – RBK

## Work Experience

2023

3 MONTH

### Stage-instructor In RBK

- As a coding instructor at RBK, I had the privilege of guiding students through an enriching and dynamic learning experience in the field of programming. Over the course of this stage, which spanned 3 MONTH, I played a pivotal role in introducing students to the world of coding, fostering a passion for technology, and equipping them with essential programming skills. My responsibilities included designing and delivering engaging lesson plans, providing hands-on coding exercises, and offering personalized guidance to ensure each student's understanding and progress. The curriculum covered fundamental programming languages such as java script and encompassed real-world projects to reinforce theoretical concepts. Throughout this period, I not only witnessed significant advancements in the students' coding proficiency but also cultivated an inclusive and collaborative learning environment. This stage provided me with valuable insights into effective teaching methodologies

2023-2024

3 MONTH

### Work – developer

work on the official platform of RBK Education, an application dedicated to providing quality education

## Personal Projects

2023

### Admin Dashboard

Developed an intuitive admin dashboard for an education platform, streamlining user management and enhancing data visualization for efficient administrative tasks  
using react for front end , express.js for backend and mysql for database

2023

### Mobile application

Led the development of a sports-focused mobile application using React Native for a seamless cross-platform experience. Implemented server-side logic with Express and utilized MySQL for robust data management, ensuring a dynamic and responsive application tailored for sports enthusiasts
